

Watt Plastics can supply a wide range of PVC Fencing Products so now you can have the look of wood combined with the durability and long life of PVC in one terrific fence product. Our reputation as a leading provider of PVC products to Sports, Equestrian, Domestic and Agricultural markets places us in a strong position to offer a wide range of products. We can also offer bespoke solutions to cater to individual customer requirements. With proven experience in the PVC fencing industry, our business is based on reputation, trust and value for money.

Picket Fencing

Picket fencing is available in permanent picket or portable picket. Portable picket is easy to assemble/dismantle, very light, easy to carry, durable, maintenance free and sections can also be connected together allowing more versatility. Whilst some customers require fencing to be temporary so it can be moved and reused, others require fencing to be permanent for which we can supply Permanent Picket Fencing. Permanent Picket can add elegant style, enhance appearance and is low maintenance. It is a strong, robust fence which is reinforced with aluminium running through the bottom rail.

Post and Rail Fencing

Our Post and Rail systems are one of the safest possible solutions for horse/livestock requirements. This fencing is available in 2 or 3 rail and comes in 8ft sections. The rails are double ribbed for additional strength and pre notched for easy installation. Can be used as fencing for walkways, fields, arenas and public areas.

Post and rail fencing also is available in versatile portable sections, this product has a number of roles including to enclose hospitality/ corporate areas, to fence grass areas, divide arenas and for use as temporary walkways. They are available in 3 rail and come in 6ft sections with a choice of heights. They are easy to move and install, are maintenance free and sections can be easily connected.

Flexible Stud Rail

Flexible Rail Fence is designed specifically for horse and other large animal containment. Innovative continuous polymer and high-tensile wire technology allows the fence to flex upon impact to reduce injury risk while keeping the animal contained due to its high break strength. Product may be used in two-, three- or four-rail combinations and can be used as a top rail over woven wire horse fence. This fence is practically maintenance free, all that is required is an annual washing of the fence to keep it looking new.
